SUMMARY

Motivated MCA student at SRM University, Chennai, with hands-on knowledge in full-stack development using React.js, Spring Boot, and MySQL. Experienced in building REST APIs, JWT-based authentication, and database management with Hibernate and Oracle. Recognized as Best Student in undergraduate studies, with a demonstrated passion for impactful tech — including an open-source digital learning platform for Tamil Nadu school students.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C, C++

Languages and Frameworks: HTML, CSS, React.js, Spring Boot, Spring Framework, REST APIs

Tools and Technologies: Git, Visual Studio Code, Eclipse, MySQL, PostgreSQL

Domain Knowledge: Full Stack Development, Database Management, Web Application Development

Areas of Interest: Frontend Development, Backend Development, Software Development

WORK EXPERIENCE

Administrative Assistant, SHaDE – Part-time Jul 2024 – Present

- Assisted in coordinating educational, medical, and food assistance activities while handling documentation and administrative support tasks.
- Prepared reports, maintained data accuracy, and supported daily office operations to ensure smooth workflow and communication within the organization

Java Developer, Congnifyz Technologies - Internship. Jun 2025 – Jul 2025

- Developed and maintained Java-based applications using object-oriented programming concepts and backend logic.
- Worked with MySQL and JDBC for database connectivity, debugging, testing, and improving application performance.

PROJECTS

PRODUCTHUB: Centralized Product Management And Order Processing Platform

Technologies Used: HTML5, CSS3, JavaScript, React.js, Java (Servlets / JSP / JDBC), MySQL, Apache Tomcat

- The system allows users to browse products, view details, add items to a cart, and complete the checkout process through a responsive web interface.
- It follows a modular full-stack architecture with JDBC-based database connectivity, providing practical exposure to real-world product-based application development.

OPEN SOURCE DIGITAL MATERIALS FOR TAMIL NADU SCHOOL STUDENTS

Technologies Used: Micro Front-end, Markdown, Katex, Git, VScode, Hugo

- Gurukulams is an open-source platform that converts traditional textbooks into interactive digital learning resources with enhanced educational features.
- It provides government school textbooks with NEET/JEE preparation questions and advanced computer science materials for college students.
